

Adetoba Adedeji

Frontend Developer

I am a creative and result-oriented developer with solid 2 years of experience in web applications. My primary focus is on the frontend in other to build Apps that create great experience for users. Responsive web design in software development is my favorite and as a result, I create responsive and interactive websites. My design approach follows the mobile-first principle and provides a great user experience for multiple users. I have two years of experience as a front-end developer.
